**Registration deadline
Monday, January 22***

** late registrations may be
accepted but lunch not guaranteed*

Morgan Webb: Though he spends his days as a seed analyst, Morgan moonlights at Greenland Garden Centre as a tree & shrub expert and co-host of the 630 CHED Garden Show. Gardeners love his down to earth advice.

Zone Envy- Explore ways to grow the plants you want and appreciate the cold climate we are in.

Granny Knows Best- After years of seeking the 'latest' plants, suddenly Morgan is gardening like his granny. He will share traditional garden tips, some of his tried & true plants, and heritage varieties.

Koen De Herdt: Since 1998 Koen and Inge De Herdt have been growing beautiful flowers in their Barrhead Greenhouse.

Colourful Containers— Get a preview of the new plants you'll find in greenhouses this spring. Learn how you can have baskets bursting with colour all season long.
