April-October*

Admission by donation or membership

A local historical site found in the heart of the Central Alberta prairies; the Trochu Arboretum is a nature lover's paradise. Home to our heritage larch and wych elm trees, as well as

numerous specimens of colourful trees and flowers. We also offer unique educational programs in the field of horticulture. An ornithologist's haven with a diverse population of birds which are found in our fountains and ponds. The visitor amenities include picnic tables, wheelchair friendly washrooms, and an interpretive centre available for group rentals. The site is also available for weddings, photo shoots, and group tours. During the month of December, we light up winter with our 'Forest of Lights' display.
