

Medicine Hat & District Horticultural Association Medicine Hat, Alberta

Description: The Medicine Hat & District Horticultural Society was first established in 1949. While it was active for many years, it was dissolved in the 70s. It was reestablished in October 1980. In 2018 the bylaws were revised and its name was changed to Medicine Hat & District Horticultural Association. Our mission is to promote all horticultural interests in and around the city of Medicine Hat and to the education of the people of the area by featuring qualified speakers on a wide range of horticultural topics.

Where to find us:

- St. John's Presbyterian Church, 2nd Street, SW, Medicine Hat
- Meet the 2nd Monday of each month (except July, August and December) 7:30 PM
- medhathort.ca, <https://www.facebook.com/MedHatHort/>
- medhathort@gmail.com

Activities: Our club holds a plant sale each spring, usually at the end of May as well as an annual Garden Tour in mid July. These are our major fundraisers. We host a Christmas dinner in December and a potluck BBQ in June for all our members. We usually have a guest speaker at each meeting. We have participated in "Seedy Sunday" and "the plant exchange" held at the local public library each spring.

Community projects: The MHHA has been involved with the local food bank "The Root Cellar" since the inception of its garden. We help with planting, and horticultural advice throughout the season. A number of our members also help maintain the garden at the historic Ewart Duggan House. This year we are hoping to assist in the development and improvement of a "native plants" bed in a local park.
